Faculty of Biology and Geology

Bachelor degrees

- Biology, 3 years, RO/HU
- Biochemistry, 3 years, RO
- Environmental biology, 3 years, RO
- Industrial biotechnologies. 4 years, RO
- Ecology & Environmental protection, 3 years, HU
- Geology, 3 years, RO/HU
- Geological engineering, 4 years, RO

Master degrees

2 years programs

- Bioinformatics in Life Sciences, teaching in EN
- Medical biology, RO/HU
- Molecular biotechnology, RO
- Nutritional sciences. RO
- Quality management in management laboratories, RO
- Systemic ecology and conservation, RO
- Terrestrial and aquatic ecology, HU
- Applied geology, RO
- Geology of Energy Resources in EN

Doctoral Schools

Integrative Biology

- Domain: Biology
- Degree: Doctor in Biology
- Research topics: environmental microbiology, cancer & nanomedicine, taxonomy, avian biology, genetic engineering, aquatic biodiversity

Theoretical and Applied Geology

- Domain: Geology
- Degree: Doctor in Geology
- Research topics: Sedimentary basins studies, Paleontological, stratigraphic & sedimentological studies, Minerals, and petrogenesis studies
